- Postgresql

CAREER OBJECTIVES

Software Engineer with proven ability to adapt in both self-starting and collaborative environments while staying focused on achieving high-quality results under strict deadlines. Eager to obtain a challenging position at any company that will expand my learning and build upon my developer skills.

WORK EXPERIENCE

FRONTEND DEVELOPER

- Coached over 20 junior frontend developers in Feasibility Giants Company in React.js, Tailwind css & Material UI.
- Developed documentation to teach new team members company standards and best practices in React.js and Node.js.
- Created and oversaw so many frontend web development projects for different clients.

BACKEND DEVELOPER

- Participated in three continuing education training courses to learn modern practices and to learn new coding languages.
- Managed the development and maintenance of 5 client-side and server-side applications.

DATA ANALYST

- Conducted data regression analysis of the relationship between company stock prices and industry trends.
- Utilized web scraping techniques to extract and organize competitor data.
- Built data prediction models with a UI for three clients.
